ENJOY **FUEL-FREE** PORTABLE POWER INDOORS OR OUT

Skip the fuel and get quiet, portable power to run your appliances and mobile devices.

HOW IT WORKS

Solar (60-watt panel)

24+ HOURS

120-V AC wall outlet

12 HOURS

GOES WHERE YOU GO

It's fuel-free, so it can be used at home or when you're camping, hunting or on the job.

CONVENIENT OPERATION

Charges through a 120-V AC wall outlet or optional solar panel (sold separately).

Able to parallel two or more solar panels for quicker charge (max 240 watts input).

Displays input, output, runtime and battery status.

Able to combine multiple units or similar batteries for increased runtimes.

SILENT OPERATION

It can be used indoors during power outages and offers quiet ambient sound levels.

SAFE DESIGN

With no engine or need for fuel, enCUBE™ is a clean power source with zero emissions. GFCI protection and C-UL-listed.

Built-in wheels and telescopic handles are designed for easy portability.

enCUBE performs under any temperature 32°-104°F.

3-YEAR LIMITED WARRANTY

Including parts and labor* — and it's backed by a network of more than 10,000 dealers.

*See warranty statement that accompanies unit.

OPTIONAL ACCESSORIES

60-watt folding solar panel

150-watt solar panel

(Two) 25-foot solar extension cords

Solar panel parallel connectors
